DEC 10 Interactive Discussion Rubric

Teacher: _____ Class: _____ Student: _____

1 Argumentation Skills

	50 or less	51-55	56-60	61-65	66-70	71-75	76 or more
	Makes unclear or irrelevant contributions that lack persuasion and minimally address others' contributions	**Attempts to persuade with some relevance, with limited elaboration and response to others' contributions**	**Sometimes uses persuasive and evaluative skills, but lacks clear idea development; uses limited criticality**	**Contributions adequately show persuasion and critical evaluation of other's ideas, but lack detail**	**Good contributions to persuade and explain a position and critically evaluate others' ideas**	**Good use of persuasive skills and critical thought to develop an argument in response to the task**	**Strong use of persuasive skills and critical thought to develop an effective response to the task**
Ideas	Contributes ideas that have unclear explanations at times and/or lack examples to support an argument or claim	Contributes some basic ideas that are clear with relevant examples to support an argument or claim, though arguments may not always convincing	Contributes ideas with some reasoning and relevant examples to support an argument or claim	Ideas are generally clear and adequately structured with relevant examples to support an argument or claim	Key points and contributions are clear with appropriately developed explanations to support an argument or claim	Key points and contributions are clear, appropriately highlighted, developed, and explained to support an argument or claim	Key points and contributions are very clear, appropriately highlighted, developed, and explained to support an argument or claim
Argumentation	Gives a basic viewpoint but responses to others lack engagement	Gives a viewpoint but with limited debate skills	Conveys a clear viewpoint but may have difficulty with debate	Restates and challenges others' contributions	Restates, evaluates and challenges other's contributions	Restates, evaluates, probes, and challenges other's contributions	Restates, evaluates, probes, and challenges other's contributions with skill
Critical Thinking	Shows minimal awareness of others' viewpoints and rarely relates these to their own perspective.	Occasionally recognises differing viewpoints but may not relate them to their own views.	Sometimes acknowledges others' views and attempts to compare them with their own beliefs.	Shows ability to reflect on different opinions by acknowledging them.	Recognises and considers other views, often comparing them with their own viewpoint.	Acknowledges and discusses various perspectives, yet can still articulate their own position.	Acknowledges and discusses various perspectives, yet clearly articulates their own position.

2 Engagement & Interaction

	50 or less	51-55	56-60	61-65	66-70	71-75	76 or more
	Responses to questions lack ease of expression; little engagement in discussions or turn-taking	**Responds to questions but with difficulty; engagement in discussions and turn-taking is minimal**	**Responds to questions with some relevance or accuracy; engages in some discussions and turn-taking**	**Responds to questions with some spontaneity; engages in discussions with some suitable turn-taking**	**Responds to questions relevantly and fluently; engages in discussions and turn-taking with minor lapses**	**Responds to questions confidently and accurately; engages appropriately in discussions**	**Responds to questions confidently and accurately with ease; effectively engages in discussions**
Individual Questions	May not respond to or understand individual questions	Attempts to understand and respond to individual questions with limited success	Responds to individual questions with some relevance or accuracy	Can respond to individual questions with some fluency and spontaneity	Can often respond to individual questions relevantly and fluently	Responds to individual questions relevantly, fluently and spontaneously	Responds to individual questions relevantly, confidently and spontaneously
Source Selection	Unable to select and use relevant information where applicable	Selects and uses some information but relevance or interpretation may be unclear	Some selection and use of relevant information where applicable	Generally selects and uses relevant information where applicable	Selects and mostly uses relevant information effectively where applicable	Selects and effectively uses relevant information where applicable	Selects and effectively uses relevant information where applicable with ease
Engagement & Interaction	Unable to offer relevant contributions or keep up with the group discussions; often fails to use turn-taking skills with the group	Minimal contribution to group discussions or difficulty following the discussions; poor turn-taking skills with the group	Some contributions to group discussions that relate to the topic; uses some turn-taking skills with the group	Some suitable contributions to group discussions, sometimes using turn-taking skills with the group to discuss the task together	Effectively contributes and interacts in group discussions using turn-taking skills with occasional lapses; discusses the task with group	Effectively contributes and engages in group discussions using a range of turn-taking skills to solve a task together	Effectively contributes and engages in complex group discussions using a range of turn-taking skills to solve a task together

3 Pronunciation & Flow

	50 or less	51-55	56-60	61-65	66-70	71-75	76 or more
	Speech causes strain and the message can only be understood with considerable effort	**Speech causes some patches of strain and the message can sometimes be unclear**	**Speech is generally clear and the message can be understood with some lapses**	**Speech is usually clear, and the message can be understood with only occasional lapses**	**Speech is mostly clear and the listener can understand the message**	**Speech is clear and the message can be understood at all times**	**Speech is clear and the message can easily be understood throughout without any effort**
Sounds, Stress, Intonation	Sounds lack clarity and cause strain for the listener; insufficient stress/intonation control	Sounds are sometimes clear but causes strain; limited stress/intonation control	Sounds are clear enough to understand but causes some strain; some good stress/intonation	Sounds are generally clear and causes little strain for the listener; stress/intonation is usually placed correctly	Most sounds are sufficiently clear for the listener to understand; sufficient control of stress/intonation	Sounds are sufficiently effective to cause no strain for the listener; sufficient stress/intonation control	Sounds are effective and easy to understand; a high level of stress/intonation control
Speech Flow	Breakdowns in the flow of speech are rarely addressed; frequent pauses cause strain	Breakdowns in the flow of speech are not usually addressed; pauses are noticeable and impact communication	Breakdowns in the flow of speech, including some long pauses, are only sometimes addressed	Breakdowns in speech, including some pauses, can be addressed by using other words	Breakdowns in the flow of speech can mostly be addressed	Breakdowns in the flow of speech are addressed	Breakdowns in the flow of speech are managed effortlessly
Cohesiveness	Speech uses few connectors	Speech uses a small range of connectors	Speech uses a limited range of connectors and cohesive devices with some loss of coherence	Speech generally uses well-structured language and a range of cohesive devices	Speech uses well-structured and coherent language and a range of cohesive devices	Speech uses smoothly flowing, well-structured language and a range of cohesive devices	Speech skilfully uses smoothly flowing, well-structured language and a range of cohesive devices

4 Language Use

	50 or less	51-55	56-60	61-65	66-70	71-75	76 or more
	Language range is often sufficient to avoid confusion; language errors sometimes impact on meaning	**Language range is usually sufficient to avoid confusion; language errors mostly do not impact on meaning**	**Language range is sufficient to avoid repetition; language choice errors do not impact on meaning**	**Language range is sufficient with some rewording and word searches; some language choices lack precision**	**Language range is adequate and can usually overcome gaps with rewording; minor language errors persist**	**Language range is wide enough to overcome gaps with rewording; language choices usually accurate**	**Language range is wide and any issues can be overcome with rewording; language choices almost always precise**
Language Competency	Uses a narrow range of language to explain points with limited accuracy; fails to adjust words to express formality	Language range is sufficient sometimes to explain main points fairly accurately; adjusts some words to express formal contexts	Language range is sufficient to explain main points and adjust formality with reasonable precision	Language range is sufficient for clear descriptions without much searching for words; some contextually appropriate formality	Expression of ideas is clear with few signs of language range limitations; confident and appropriate use of formal language	Expression of ideas is not limited by the range of language; formality and politeness are contextually appropriate	Ideas are flexibly expressed using a range of language; formality and politeness are consistently contextually appropriate
Vocabulary Usage	Vocabulary range is often sufficient for conveying simple ideas, but choices can impact on the message	Vocabulary range is sufficient for conveying simple ideas, but some choices can hinder the message	Vocabulary range is sufficient to avoid frequent repetition, though some choices lead to confusion	Vocabulary range is good, and gaps can sometimes be overcome with rewording; some searching for words	Vocabulary range is good, and gaps can usually be overcome with rewording; only minor errors	Vocabulary range is wide enough for any gaps to be overcome with rewording and choices are usually accurate	Vocabulary range is wide and gaps can easily be overcome to communicate the message with almost always precise choices
Grammar Usage	Grammar control is occasionally good for simple structures; errors may change the meaning	Grammar control is sometimes good for simple structures and most errors do not change the meaning	Grammar control is relatively good for simple structures and any errors do not impact on meaning	Grammar control is good for simple structures but errors may occur in complex structures	Grammar control is adequate but minor errors persist	Grammar control is mostly accurate and any errors are minor	Grammar is well-controlled and errors are rare and minor
