DEC10 · INTERACTIVE PRESENTATION

Follow-up Questions

Question types and examples

1 Questions on content

about what the presenter said

Clarification

Ask the presenter to make something clearer

1. What did you mean by ...?
2. What do [specific data] represent?
3. Can you give some more details about ...?
4. What does [term/concept] mean?
5. Could you clarify how/when/where/why [something]?

Probing

Ask the presenter to go deeper

1. Can you explain why that is important?
2. Why do you think [specific data] are important for your point?
3. Why did you choose to focus on ...?
4. What makes that a challenge?
5. How did you come to that conclusion?

2 Questions on academic skills toolkit

about how the presenter prepared

Digital literacy & AI

- Q Can you describe which AI tools you used in your research and how you used them?
- Q Was there any part of the task where you chose not to use AI? Why?
- Q Can you describe a time when AI changed your original ideas or direction during your research?

Group work skills

- Q How did you decide who does what in preparing this presentation?
- Q How did you make sure everyone's ideas were considered?
- Q What digital tools did you use to work together and why?

Self-regulation & monitoring

- Q How did you manage your time preparing for this presentation?
- Q How did you manage any distractions when working on your presentation at home?
- Q Do you think you managed your time well in preparing for this presentation?

Feedback literacy

- Q How did you use the rubric to guide your preparation for the presentation?
- Q How useful was the action plan you had made to improve your presentation?
- Q Did you evaluate your groupmates' presentation practice? How did you do this?

Research skills

- Q What methods did you use to research information for this week's topic?
- Q Did you find it easier to use library resources or online resources? Why?
- Q Can you explain how you evaluated the quality of the sources you found in this week's research?

Criticality

- Q Did your research change your perspective on this week's topic? If so, how?
- Q Did any of the sources you found raise questions that you want to explore further?
- Q Did you find any conflicting information during your research, and how did you handle it?

Tip: Listen carefully, then build on what you heard. Start with a clarification question, then probe deeper.
