DEC10 WEEK 3 · DAY 5 · 23A DISCUSSION SKILLS (1) · SKILL 1

Human sentence — *Statement A cards*

1. Take one **A** card and one **B** card. Read them **aloud**.
2. The third person **chooses a device** card and stands **between** them.
3. Read the whole sentence. **Explain why** the device fits. Thumbs up or down?

A STATEMENT A — A1

The transition to a green economy is like an industrial revolution due to its impacts.

A STATEMENT A — A2

A green economy aims to improve well-being and equity while reducing environmental risks.

A STATEMENT A — A3

Defining "green jobs" lacks universal criteria, which complicates policy decisions.

A STATEMENT A — A4

Green and non-green jobs often share similar skills, affecting retraining needs.

A STATEMENT A — A5

Green jobs are generally higher-skilled and less routine than non-green jobs.

A STATEMENT A — A6

The concepts of "green jobs" and "green skills" are often vague and used interchangeably.

A STATEMENT A — A7

Green jobs can either be traditional roles adapted to green goals or entirely new roles.

A STATEMENT A — A8

Green jobs are becoming more skill-intensive, requiring specific technical skills.

Set: A1–A8 · B1–B7 · 16 devices · cut on the dashed lines

Human sentence — *Statement B cards*

Statement A + cohesive device + Statement B → say why

B STATEMENT B — B1

Soft skills like creativity and resilience are more important in the green economy.

B STATEMENT B — B2

Green skills directly combat climate change by preserving natural resources.

B STATEMENT B — B3

The demand for green skills has grown steadily, increasing by 9% annually.

B STATEMENT B — B4

Only one in eight workers currently has green skills, creating a significant skills gap.

B STATEMENT B — B5

Workers with green skills are 30% more likely to be hired than those without.

B STATEMENT B — B6

Demand for green skills varies between countries and between sectors.

B STATEMENT B — B7

Science, technology, and engineering workers adopt green skills faster than others.

? EXPLAIN YOUR CHOICE — HOW

I chose "On the other hand" **to make a contrast between** …

"As a result" **shows that the second idea is an effect of** the first.

These two don't really connect, because … → take new cards.

Human sentence — *cohesive device cards*

Hold the device card **between** Statement A and Statement B. One device per sentence. **Example:** Green jobs are generally higher-skilled and less routine than non-green jobs. **On the other hand,** green and non-green jobs often share similar skills.

+ **Moreover** ADDITION	+ **In addition** ADDITION	+ **Furthermore** ADDITION	+ **Also** ADDITION
↔ **However** CONTRAST / CONCESSION	↔ **On the other hand** CONTRAST / CONCESSION	↔ **In contrast** CONTRAST / CONCESSION	↔ **Although** CONTRAST / CONCESSION
→ **Therefore** CAUSE AND EFFECT	→ **As a result** CAUSE AND EFFECT	→ **Consequently** CAUSE AND EFFECT	→ **This leads to** CAUSE AND EFFECT
e.g. **For instance** EXAMPLE	e.g. **For example** EXAMPLE	e.g. **Such as** EXAMPLE	e.g. **To illustrate** EXAMPLE

Board race — *column signs*

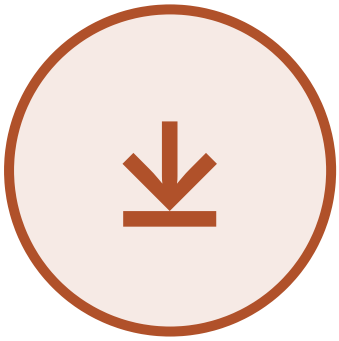

1. Cut the **three signs**. Stick them at the top of the board.
2. Draw **two lines** down the board to make **three columns**.
3. Leave them up: question masters **use them** in P4 and P5.

Clarification

I didn't understand — please explain.

"Could you explain what you mean by …?" · "Sorry, did you say …?"

Probing

Go deeper — why? what if? what evidence?

"Why do you think …?" · "What would happen if …?"

AST

How did you prepare as a group?

"How did you decide …?" · "How did your group overcome …?"

DEC10 WEEK 3 · DAY 5 · 15A PRESENTATIONS · TOOLKIT

Board race — *question strips*

Run it. One runner per team. Take one strip, read it **aloud** at the board, stick it in the right column, run back and tag the next runner.

Points. Right column = 1 point. The class says "clarification", "probing" or "AST" to check. Last runner adds a **new question** of your own.

TEAM _____ Q-K

Why do you think some workers find it harder to retrain than others?

TEAM _____ Q-C

How did you decide who presented which part of the talk?

TEAM _____ Q-F

Could you explain what you mean by "upskilling"?

TEAM _____ Q-A

What would happen if companies stopped training older workers?

TEAM _____ Q-H

Sorry, did you say 14% or 40% of jobs?

TEAM _____ Q-M

What methods did you use to check that your sources were reliable?

TEAM _____ Q-B

So, are you saying that AI will replace most office jobs?

TEAM _____ Q-L

What evidence is there that remote work makes people more productive?

TEAM _____ Q-E

How did your group overcome disagreements about the solution?

TEAM _____ Q-J

Could you explain what you mean by "the gig economy"?

TEAM _____ Q-D

Why do you think green jobs are growing so fast?

TEAM _____ Q-G

In the future, how would you manage your time differently?

3. **Round 1** (about 5 min) → reflect → **Round 2**: a different student starts.

TOPIC 1 · THE GREEN ECONOMY T1

The demand for green skills is growing, but workers are not learning these skills fast enough. What can governments or companies do to fix this problem?

TOPIC 2 · THE GREEN ECONOMY T2

Green jobs require both technical skills and soft skills like creativity and adaptability. Which type of skill is more important, in your opinion?

TOPIC 3 · THE GREEN ECONOMY T3

Many traditional jobs, like data scientists or managers, are becoming green. How do you think this will change the job market in the future?

TOPIC 4 · THE GREEN ECONOMY T4

Having green skills makes workers more employable and helps them find better jobs. Do you think this will motivate more people to learn green skills? Why or why not?
