DEC10 · WEEK 3 · DAY 2 · 7A MEDIATION · ROLE CARD A

HR representative

MY NAME

SCENARIO The candidate is applying for a position at a company that specializes in renewable energy solutions. The role requires managing projects aimed at reducing environmental impact and promoting sustainability. The HR representative's goal is to find a candidate who not only possesses the necessary technical skills but also has a deep understanding of the broader implications of green skills within the workforce.

1. **INTRODUCTIONS**
   Introduce the role and outline its key responsibilities related to sustainability and project management.
2. **GREEN SKILLS**
   Ask the candidate to explain their understanding of green skills and why these skills are important for this role.
3. **EXAMPLES**
   Request specific examples from the candidate's past experience where they applied green skills in a professional context.
4. **LEARNING AND ADAPTABILITY**
   Discuss adaptability and the need for continuous learning in the rapidly evolving green sector.
5. **TRENDS**
   Assess the candidate's awareness of current trends and emerging practices in the green job market.

OPEN AND CLOSE

- "Thank you for coming in today. Let me tell you a little about the role.
- "Do you have any questions for us?
- "We'll be in touch by the end of the week.

ASK

- "Can you describe your understanding of green skills and how they apply to this position?
- "Could you provide an example of how you've implemented sustainable practices in a previous role?

DIG DEEPER

- "Could you give me a specific example?
- "What was the result of that project?

Job candidate

MY NAME

SCENARIO The candidate is applying for a position at a company that specializes in renewable energy solutions. The role requires managing projects aimed at reducing environmental impact and promoting sustainability. The HR representative's goal is to find a candidate who not only possesses the necessary technical skills but also has a deep understanding of the broader implications of green skills within the workforce.

1. **INTRODUCTIONS**
   Introduce yourself and explain why you are interested in this role and how it aligns with your career goals.
2. **GREEN SKILLS**
   Define green skills in your own words and describe how you have developed these skills.
3. **EXAMPLES**
   Share specific examples from previous jobs or projects where you effectively used green skills to achieve successful outcomes.
4. **LEARNING**
   Highlight your commitment to continuous learning, and explain how you stay updated with the latest trends and practices in the green sector.
5. **ADAPTABILITY**
   Convince the HR representative that you are adaptable and capable of handling new challenges in sustainability and green technology.

DEC10 WEEK 3 · DAY 2 · 7A MEDIATION · RECAP

Quiz, quiz, trade — *recap cards*

✂ **One card per student.** Cut out the 10 cards. 11–20 students: print 2 copies · 21–30: print 3. The answer is on the card — it is for the **asker**, so hold your card so only you can see it.

1. **Stand up**, hand up, find a partner. Read your question aloud.
2. Partner answers and **names a source**. Help with the answer on your card. Then swap.
3. **Trade cards**, say thank you, hand up, find a new partner.

DEFINITION 1

What is a green skill? Give two examples.

ANSWER A skill that directly combats the effects of climate change by reducing pollution or preserving natural resources — e.g. water preservation, energy efficiency. **Hyman and Smith (2023)**

SKILLS GAP 2

What is the skills gap in the LinkedIn report?

ANSWER Demand for green skills is growing faster than the supply of workers who have them: only **one in eight** workers has green skills. **Hyman and Smith (2023)**

CAUSE → SOLUTION 3

What causes the skills gap, and how can education close it?

ANSWER Jobs change fast because of green policies; skills develop more slowly. Fix: targeted training, updated courses, continuous and on-the-job learning. **Bowen et al. (2018) · Hyman and Smith (2023)**

GREENING ROLES 4

Name three jobs that don't look green but are "greening". Why?

ANSWER Fleet managers, compliance managers, health workers, data scientists — all sectors now face environmental rules and expectations. **Hyman and Smith (2023)**

THE FUTURE 5

What does the LinkedIn report predict about demand for green skills?

ANSWER It will keep rising: jobs needing a green skill grew about **9% a year** for five years, with a **20%** jump last year. **Hyman and Smith (2023)**

NUMBERS 6

What does the number 22.4% refer to?

ANSWER The share of job postings in the last year that required at least one green skill. **Hyman and Smith (2023)**

NUMBERS 7

How much more likely are workers with green skills to get hired?

ANSWER **30%** more likely than workers without green skills. **Hyman and Smith (2023)**

KEY TERM 8

What is "skill distance"? Give an example.

ANSWER How much re-training you need to move from one job to another — small from marketing manager to sales manager, large to software developer. **Bowen et al. (2018)**

COMPARE 9

How are green occupations different from non-green ones?

ANSWER Less routine-intensive and higher-skill; they need high-level analytical and technical skills, more education and on-the-job training. **Bowen et al. (2018)**

YOUR VIEW 10

Is upskilling in green skills a good idea for you? Give one reason and one source.

MODEL Yes — according to the LinkedIn report, workers with green skills are 30% more likely to get hired, so it could boost my employability. **Any source**

SAY IT *"According to …, …"* · *"Both the reading and the podcast mention …"* · *"Nearly — the report actually says …"*
