15 We could hear a range of appropriate cohesive devices.	◯	◯	◯

LANGUAGE USE	Yes	Mostly	Needs work
16 The presenter had enough vocabulary to communicate their ideas.	◯	◯	◯
17 The grammar used was largely accurate and we could understand the meaning.	◯	◯	◯

QUESTION & ANSWER	Yes	Mostly	Needs work
18 Answers were given spontaneously.	◯	◯	◯
19 Answers were clear.	◯	◯	◯
20 Answers were relevant.	◯	◯	◯

Actions for further improvement

Say what worked well, then exactly what to do next time.

Content Delivery

- Ideas

EXAMPLE *The main cause was clear, but instead of reading it from the slide, you should just have the key words on the slide and then give details in your speaking.*

- Structure & Sources

EXAMPLE *Try to use more functional language to cite evidence, such as "As reported by ...", "As [source] found, ..." or "Research by [source] found ...".*

- Delivery

EXAMPLE *It was really impressive that you didn't read your speech and your speaking sounded very natural. But it was very fast sometimes! Try to slow down a bit next time, especially pausing between your points.*

Pronunciation & Flow

EXAMPLE *It would help the audience catch your ideas if you put more stress on important key words.*

Language Use

EXAMPLE *Careful next time with the right verb tense. You used the past simple a lot when you were talking about the current situation.*

Question & Answer

EXAMPLE *Good job overall! Try to give as much detail as possible so your answers are a bit longer and more developed next time.*

Overall Comment

EXAMPLE *A clear, well-structured talk with strong evidence. Your main focus for next time: slow down and pause between your points.*

Useful language for giving feedback

Saying what worked

- It was really effective when you ...
- I liked the way you ...
- Your ... was very clear because ...

Suggesting an action

- Next time, try to ...
- It would help the audience if you ...
- Be careful with ... For example, ...
